

Wish List 2035 *GIFT GUIDE*

FAITH POPCORN'S BRAINRESERVE

As one year ends and another soon begins, I'm surrounded by the usual tsunami of snail-mail catalogs and online discount codes, hawking the latest gifts to lavish upon loved ones.

Futurist that I am, I couldn't help but wonder: What will be on a wish list 20-plus years from now? What will be the things that would be in-demand, desired, and perfect for the people (or bots) that we adore?

I created this list as my New Year's gift to you in order to spark ideas, discussion and debate about where our culture is heading—and how our lives will morph in the decades ahead.

Here's to imagining and creating our Best (or worst?) Future,

A handwritten signature in black ink, appearing to read "Fay B." with a stylized flourish at the end.

THE ULTIMATE GIFT GUIDE

Downloadable version of the experience is shared immediately upon completion for future immersive viewing; one TheraBot session also included to ensure seamless emotional processing.

8

Fresh Natural Food Dinner with Real Spring Water

Few people today know what natural foods taste like – let us create an heirloom dinner in the style of our early 20th-century ancestors. Organic ingredients grown on Pennsylvania's famed Morgan Estate Preserve and 100% real meat and game are hand-crafted by an elite chef into a decadent 10-course meal for two **(\$2000)**, complete with immersive soundtrack

and projected imagery. The dinner will share such rare tastes as spring greens, New Jersey tomatoes, quail, lamb, and berries – along with other foods that also vanished in the last decade. Absolutely no lab-grown, 3D-printed, or GMO foods are used. The meal is accompanied by a flight of spring water, bottled before the Cheyenne Nuclear Incident. All gratuities included.

A close-up photograph of a newborn baby's face, eyes closed, being gently held by two hands. The baby has dark hair and skin. The hands are positioned on either side of the baby's head. In the foreground, a dark, curly, textured blanket is visible. The background is dark and out of focus.

9

Custom-Crafted Genius Newborn

For the couple, individual or co-living unit that has everything, we proudly present the ultimate gift: A newborn that incorporates fully screened and CRISPR'd DNA from up to four individuals of any gender. Using the latest technologies from OvaSynth, a healthy newborn with an IQ of no less than 165 will be delivered within 3 months of DNA collection. **\$500,000**. Customization of physical appearance available, **\$125,000**. Includes full DNA-vetting and guardianship legal documentation. Limited to 3 babies in the coming calendar year. To join the waiting list for next year, contact our GiftBot.

10

Share in a Private Reservoir

Imagine no more atmospheric water harvesting, no more filtering and micro-plastic monitoring. Gift the gift of worry-free drinking water to a special someone **(\$899/year)**. We have created an exclusive reservoir on a carefully guarded Maine campus, and deliver water quarterly, using zero-emission transportation. The gift includes the H2App that provides constant real-time visual connection to the reservoir and water analysis, for a deep relationship between the Reservoir Share recipient and their hydration source.
